

H.U.G.O.

EXCLUSIVELY FOR RETAILERS!

GREINER H.U.G.O. HYGIENE COLUMN. DISINFECTION AND DESIGN IN ONE.

Disinfectant dispensers are now a "must" at the entrance to practices and clinic lobbies, old people's and nursing homes, rehabilitation and care centres. The offers in that respect are varied – but rarely striking. Hygiene in a room also involves aesthetics. GREINER has taken up this design challenge and developed a hygiene column that attracts attention: H.U.G.O.

H.U.G.O. is more than a disinfectant dispenser. It looks like an art piece made of fine wood with a natural look. Moulded in a complex manufacturing process and resistant to mechanical or chemical influences thanks to an invisible surface coating, it is a proven designer piece that turns a "must" into a "must-have". Elegance and function in one, perfectly motivating people to disinfect their hands.

GREINER H.U.G.O. HYGIENE COLUMN – SPECIAL OFFER FOR AUTUMN! DISINFECTION AND DESIGN IN ONE.

Hygiene for the eye: H.U.G.O. is the disinfectant dispenser that is slim and perfectly shaped - a conversation piece that motivates people to disinfect their hands better than any usual dispenser. Natural materials from sustainable production, piece by piece incomparable. Wood shaped with a double curve, oak veneer on a beech core, which can elegantly and safely do without visible joints. The hygiene column does not give the impression of being a technical foreign body, as common disinfectant dispensers unfortunately do, but develops its own aesthetic and integrates naturally into every room.

The dispenser itself is attached at an ergonomically sensible height. The stainless-steel drip tray can easily be cleaned in the dishwasher. The standardised dispenser enables practical handling of commercially available 500 ml containers with hand disinfectants and gel, liquid soaps or fluid lotions. To ensure a long service life, the dispenser system specifically allows exchanging the pump. The housing can also be disinfected and cleaned in the autoclave.

H.U.G.O. perfectly motivates people to disinfect their hands

Wood shaped with a double curve, elegant veneer on a beech core, clear lacquer, B1-certified

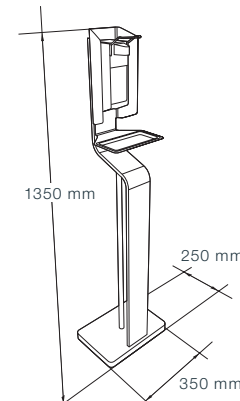

Dispenser standard EUR1 for 500 ml

Attracts attention: H.U.G.O.
